Science Lab Technique et Biochimie TBC (Kit)

Student experiment set of the student experiment system Science Lab in the field of chemistry.

Set-up material for one working group in pre-formed tray.

With the equipment set TBC, together with the Science Lab Chemistry Basic CB (207 200S), more than 50 experiments at high school, college and basic university level for worldwide curriculums can be performed.

The students deal with the topics technical chemistry and/or biochemistry.

While working out the curriculum required topics, they are also trained in communication and assessment skills.

In combination with the Mobile-CASSY 2 (524 005W), there are additional evaluation options which enable the students digital learning.
